

2nd Collaborative Research Centers Meeting

Warnemünde June, 25th 2010

venue Leibniz Institute for Baltic Sea Research

speakers

10.30 am

Moshe Shapiro

Chemistry Department, University of British Columbia, USA

The spectroscopic phase problem: imaging of unknown wavepackets and extracting excited potentials from fluorescence data

11.30 am

Thomas Baumert

Institut für Physik, Universität Kassel, Germany

Ultrafast Laser Control of Coherent and Incoherent Ionization Processes

SFB 450 Berlin

Analysis and Control of Ultrafast Photoinduced Reactions

SFB 652 Rostock

Strong Correlations and Collective Effects in Radiation Fields
